

# Muse 2023

Syrah - Grenache Noir

## The estate

We both come from the Rhône-Alpes region, and have been living in the mountains for several years. We decided to change our lives. Erika's family has owned vineyards in Paziols (11350), in the high Corbières, for several generations.

We embarked on our adventure in 2016. We learned from a number of local winemakers, including Xavier Ponsart (Domaine Poc a poc) and Sébastien Agelet (Domaine De Mena). They encouraged us to set up our own winery.

We chose to go down the natural wine route, because it best matched our values. It was unthinkable for us not to grow our vines organically and produce a product that was as healthy and natural as possible.

## In the vineyard

Muse is made from 30-year-old vines. This Syrah is well established in our region.

## The vinification

La vendange se fait manuellement tôt dans la journée, afin de profiter un maximum de la fraîcheur du matin. En cave nous contrôlons les températures lors de la vinification. Les Fermentations se font à partir des levures (indigènes) naturellement présentes sur le raisin. Pressurage direct. Assemblage syrah et seconde presse de grenache noir. Pas d'ajout d'intrant. Mise en bouteille courant février-mars.

## The tasting

A colorful rosé with a nose of ripe red berries and crushed strawberries. Slightly acted. Full of greed for this wine of immediate pleasure, underlined by a moderate acidity.
