

Sunset 2023

Lledoner Pelut – Grenache Noir

The estate

We both come from the Rhône-Alpes region, and have been living in the mountains for several years. We decided to change our lives. Erika's family has owned vineyards in Paziols (11350), in the high Corbières, for several generations.

We embarked on our adventure in 2016. We learned from a number of local winemakers, including Xavier Ponsart (Domaine Poc a poc) and Sébastien Agelet (Domaine De Mena). They encouraged us to set up our own winery.

We chose to go down the natural wine route, because it best matched our values. It was unthinkable for us not to grow our vines organically and produce a product that was as healthy and natural as possible.

In the vineyard

Sunset is made from 70-year-old mature vines. Pruning is carried out using the old gobelet method.

The vinification

The grapes are hand-picked early in the day, to take maximum advantage of the cool morning air. In the cellar, we control temperatures during vinification to maintain freshness. Fermentation is carried out using the indigenous yeasts naturally present in the grapes. Whole-cluster, crushed vinification, short 2-day maceration and pressing as soon as fermentation starts.

The tasting

Light red colour. Similar to “Claret”. A red wine that is easy to drink in summer. Very light. Delicious, expressive nose of red fruit, strawberry and grenadine. Drink cool. A good acidity and liveliness on the palate.
